Copy No. 4 of 4

RR/HTA/E/RL13/58 Reported GM Site Near Omsk

25X1A

25X1

An examination of photography in the Omsk Area reveals no evidence of a possible missile complex as described in Department of Army Cable, [REDACTED]

[REDACTED] If the installation exists, it has either been constructed since the latest available photographic coverage dated [REDACTED] or the geographic coordinates as given in the cablegram are incorrect. If the coordinates as given are incorrect, the reported complex may not be covered by photography.
